## MONTHLY POLL

November 2023<br>Job Greators Network Foundation Small Business Monthly Poll<br>Conducted By: John McLaughlin Scott Rasmussen

## Methodology

This national survey of 400 small business employers was conducted between November 4-30, 2023. This presentation includes JCNF's SBIQ (Small Business Intelligence Quotient). The Small Business IQ Monthly Poll tracks its SBIQ, identifies key trends, and offers valuable insights into policies impacting small business employers.

All interviews were conducted online with randomly distributed invitations. The geographic and demographic profiles were structured to represent the population of small business employers in the United States. The sample of 400 small business employers has an accuracy of $+/-4.9 \%$ at a $95 \%$ confidence interval. The numbers in this presentation have been rounded and may not equal $100 \%$.

The JCNF SBIQ is calculated on a scale from 0 to 100 , with 100 being best possible conditions and 0 being worst possible conditions.
Small Business A score of 50 is neutral, anything above 50 is positive and anything below is negative. The JCNF SBIQ is based on 7-questions:
Intelligence
Quotient Furrent Conditions: Employer's Business, U.S. Economy, and Climate for Small Businesses

—Current Conditions -Future Expectations

Own Business Conditions: Employer's Business, Employer's Business Next 3-Months, and Employer's Hiring Next 3-Months National Conditions: U.S. Economy, and Climate for Small Businesses, Direction of U.S. Economy, and Direction of Climate for Small Business

## Divergence Between Perception of Own Business \& National Economic Conditions

## Small Business Employer Profile

Brick \& Mortar Store
